Introduction:

Diamond edge cutting blade and segments are suitable for slab edge cutting of granite and other hard stone.

Suitable for bridge cutting machines.

Features:

1.Excellent comprehensive cutting performance.

2.High cutting efficiency,meanwhile,it has a long lifespan.

3.Applicable for granite of various hardness classes, multi-purpose.

Specifications:

The followings are the normal specifications of our normal shape diamond segment for granite:

Product Name	Diameter (mm)	Steel Core (mm)	Segment Dimension (mm)	Segment Number	Application
Edge Cutting Blade For Granite	Ø300	2.2	40*3.2*10(15,20)	21	Granite
	Ø350	2.2	40*3.2*10(15,20)	24	
	Ø400	2.6	40*3.6*10(15,20)	28	
	Ø450	3.0	40*4.0*10(15,20)	32	
Splitting Blade For Granite	Ø500	3.0	40*4.0*10(15,20)	36	
	Ø550	3.6	40*4.6*10(15,20)	40	
	Ø600	3.6	40*4.6*10(15,20)	42	
	Ø650	4.0	40*5.0*10(15,20)	46	
	Ø700	4.0	40*5.0*10(15,20)	50	
	Ø750	4.0	40*5.0*10(15,20)	54	
	Ø800	4.5	40*5.5*10(15,20)	57	
	Ø850	4.5	40*5.5*10(15,20)	58	

The above specifications are for reference, other specifications can be ordered by customers.
