Descriptions:

Stable Quality Fan Shape Slab Stone Cutting Diamond Edge Segment for Marble Cutting:

Our **Diamond Edge Segment for Marble Cutting** are made by high-quality diamond powder and metal powder mixture, produced by pressing and sintering, diamond powder and metal powder combine closely, the quality is higher and the effect is better.

The design of **Diamond Edge Segment for Marble Cutting** has good sharpness and high efficiency at the process of cutting.

Such diamond segment are highest ratio of performance to price!

Specifications:

We are instrumental in providing to our valuable customers excellent quality **Diamond Edge Segment for Marble Cutting** which are available with following specification:

300-600mm Marble Edge Cutting Segment					
Diameter		Segment Size			No.of teeth
Inch	mm	length	Thickness	Height	Number
12	300	40	3.0	8/10	21
14	350	40	3.2	8/10	25
16	400	40	3.6	8/10	28
18	450	40	4.0	8/10	32
20	500	40	4.2	8/10	36
24	600	40	4.6	8/10	42

Besides Stable Quality Fan Shape Slab Stone Cutting **Diamond Edge Segment for Marble Cutting**,
All of our products have been strictly tested before access to market. Other specifications can be customized
according to requirements.

Product Details:

Stable Quality Fan Shape Slab Stone Cutting Diamond Edge Segment for Marble Cutting:

Applications:

Stable Quality Fan Shape Slab Stone Cutting Diamond Edge Segment for Marble Cutting, Diamond segment for slab edge cutting of marble, limestone, slate, various soft stone without quartz.

Diamond Saw Blade Cutting

Cutting Effect:

Advantages:

1. The segment has good sharpness and high efficiency at the process of cutting, meanwhile, it has a long lifespan.

2. Good cutting result: smooth cutting, flat surface and even size.

3. Stable cutting, narrow cutting gap, stone waste reduction.

Related Products:

About us:

We have a strict quality control system

Packing & Delivery:

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1. If we want to buy diamond segment, how could we know the quality?
You can buy diamond segment with a small quantity first, test the quality and our service, it will be much better for our long term cooperation. For small quantity, you don’t need to take risk in case the quality doesn’t fit your market.

2. What could we do if we find your diamond segment are not in good performance?
Please tell us the detailed information of the cutting, for example:

1). The RPM of the machine, the cutting object.
2). The detail picture of diamond segment after use, e.g. the cutting side of diamond segment.
3). Do you feed enough cooling water.

3. What is the delivery way?
Express Courier Service, Sea Cargo and so on. We give the advice according to actual situation for customers make decision.

Please note:

Please use high frequency silver welded machine instead of fire to make the brazing, the welding time is only a few seconds, otherwise the diamond inside the segments will probably be damaged by the high temperature, then the cutting performance will be reduced!
