Product Description:

Brief Introduction:

The BWM-DT01 titanium coating machine is designed for electroplating titanium on diamond powder.The diamond powder can be more durable and sharp after titanium electroplated.

Features:

1* Large volume, high-power.Capacity of processing can be as much as 40,000 ct for once, reduce labor intensity.
2* PCL intelligent control system, temperature control can be more precise.
3* Stainless steel shell , more beautiful and durable.
4* Easily operation, low failure rate.
5* Filtration system, maximized the life of the vacuum system.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of diamond powder titanium coating machine:

Model	BWM-DT01
Power	6 KW
Speed	40000 CT/TIME
Vlotage	AC 380 V
Weight	190 KG
Max volume	3.6 L
Size	1900*700*1100 mm

Other specification can be customized according to needs.
