Introduction:

Diamond milling wheel is been applied to router machines or CNC machines.It is used to level off your slab before running your profile wheels.Diamond silent milling wheels are widely used for grinding surface of granite and marble. With special material,it save lots of weights and make no any noise when working.

D350mm CNC segment wide 40mm diamond silent core milling wheel for grinding granite and marble are used for surface milling and material removal for various granite and marble stone.

Feature:

1.Good performance and long lifespan.
2.With feature of high efficiency,accuracy in shape and size.
3.Wet cutting; Nylon body with lightweight; Aebor 50 or 60mm available
4. The diamond silent milling wheel was designed for stationary saws and milling.
5. The unique design with good sharpness allows easy dust removal, low noise and safety.machine. It is available in a granite and a marble surface, both options feature an ultra quiet core and high quality segment.

Specification:

Diamond Milling wheel of the conventional specifications:

Diameter / mm	Segment Width / mm	Inner Hole / mm	Connection	Grit NO.	Machine
250 300 350 400	20 25 30 35 40	50 60	Φ10-2 + 2Hole Φ50-3 + 3Hole	30/40 # 60 # 100 # 200 #	CNC machine and radial arm machine

In order to improve the grinding efficiency of grinding wheel, we have some suggestions for the machine speed:

RPM	Feed rate	Recommended depth
4500	400-600mm / min	3mm

Other specifications can be customized after communication

Packing & Delivery:

1. Tools packing in carton cases;
2. When tools are in large quantities, they are packing in wooden cases.

-DELIVERY-

Less than 45kg,generally delivery by express(Door to Door).

By Air / Sea for batch goods, Airport / Port receiving.

BY AIR

BY SEA

Kindly Noted:

When place order for diamond Milling Wheel please inform the following:

Grit No.

Order Quantity

Dry or Wet Use

Diameter (Inch or mm)
