Introduction:
Fickert segment is made of premium resin.Increase in the production,due to the higher performance of "ADR" compared to the traditional abrasive,avoiding the continuous standstill of the machine.decrease of the pressure on the heads,reducing noticeably the maintenance cost and energy.Storage for unlimited time,being stable without changes in its properties, individual identification by marking and colour code,informing about the corresponding grain.

Features:
1.High smooth and longer lifespan.
2.Without scratch or break slates.

Specifications:
Fickert Resin Abrasive Brick:

Product Name	Model	Specifications	Grit No.	Applications
Fickert Abrasive Brick	T140	140*56*15(20	36# 46# 80# 120# 180# 240# 320# 400# 600# 800# 1200# 1500# 3000# 6000# Lux	Granite Marble Ceramic etc
	T170	170*56*15(20)		

The specifications only for reference, other specifications can be customized.
