Introduction:

1. Segmented diamond stubbing wheels usually used for sink hole on the wash basin, bathtub, sink and other products;
2. Stubbing wheels also can use for calibrating the stone slab, these wheels have large segments for fast stock removal;
3. The diameter of the stubbing wheels is 100mm, segment hight is 20mm, connection is 50mm, diamond segment type is segmented, the wheels usually used on CNC machines;
4. We offer a variety of different grits, types, and sizes of stubbing wheels, the stubbing wheels can process many kinds materials.

Features:

1. With feature of high efficiency,accuracy in shape and size;
2. Stubbing wheels can process variety materials, wide applicability;
3. Other specifications can be customized after communication.

Specification:

Diameter	Segment Height	Inner Hole	Connection	Grit	Machine
50 86 90 100	20 25 30 40	10 50	Φ10-2 + 2Hole Φ50-3 + 3Hole Φ50-3 + 3Hole	30/40# 60# 100# 120#	CNC machine

Other connection and specification can be customized according to need.
