Production Description:

Introduction

This diamond router bits are widely used on portable profiling machines for processing the edge of stone kitchen tops, vanity tops,counter tops,table tops etc. We offer a wide range & shapes with different sizes to satisfy your exact profiling needs.

Features:

1. The unique design with good sharpness allows easy dust removal, low noise and safety.
2. This product provides high accuracy and smooth surface in stone processing.
3. Lifespan could normally reach more than 450meters.
4. With feature of high efficiency accuracy in shape and size.
5. Other specification are available upon client's request.

Using sequence

Order of use:from rough grit to fine,finally polishing.

Advantage

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia ,
more than 20 different countries . In these overseas markets,our diamond router bits
enjoy a good reputation, we get good feedbacks about their corresponding test result, and also a long lifes pan. so, we are confident in our products quality.

All of our our products have been strictly tested before access to market.
Other specification can be ordered by client.
