

Introduction:

Boreway diamond calibrating milling wheels is wet use for milling surface of materials.

Features:

- 1.Good sharpness and high working efficiency.
- 2.Small metamorphose and good balance,accuracy in shapes and sizes.
- 3.Normal ones and silent ones are both available.
- 4.Silent core can be ordered separate and reuse to save cost.

Specifications:

The followings are the normal specifications of our diamond calibrating milling wheels:

Product Name	Diameter	Width/Thickness	Inner Hole	Segment Type	Silent or Not
Diamond Calibrating Milling Wheel	12'' 300mm	25 mm	30 mm	Straight Segment	Normal
		30 mm	50 mm	Oblique Segment	Silent Nylon Core
		35 mm			
		40 mm		Electroplated	Silent Steel Core With Holes
	14'' 350mm	25 mm			
		30 mm			
		35 mm			
		40 mm			

Other specifications can be ordered by customers.
