

Introduction:

CNC tungsten steel chisel on CNC engraving machine is mainly used for granite, marble and other stone carving, drilling and milling, processing, and can also be used for stone lines forming

Features:

1. tungsten steel, high milling performance
2. Wear good
3. Low noise

specification:

The following are the specifications of our conventional CNC tungsten steel chisel:

Specifications / mm	Segment Length / mm	Connection	Adaptation machines
3	50	1/2 "-G	CNC machine
5	50		
8	50
