

Product description:

Brief introduction:

D50*40T*M14 resin filled diamond drum wheels are used for polishing granite marble and other stone, zero tolerance polishing wheels are usually used after segmented diamond zero tolerance grinding wheels, make the stone surface smooth and tidy. Resin-filled zero tolerance wheel are excellent for stock removal, resin-filled design greatly reduces bounce and minimizes chipping.

Using sequence:

From coarse grit to soft grit, finally polishing. These kind resin filled diamond drum wheels can be wet and dry use.

Advantage:

Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia, more than 20 different countries. In these overseas markets, our products enjoy a good reputation, we get good feedbacks after their corresponding test result, so, we are confident in our products quality.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of D50*40T*M14 zero tolerance polishing wheels:

Diameter: 50mm

Height: 40mm

Connection: M14

Type: Wet and dry use

Material: Diamond and resin

Applicable materials: Marble granite and other stone

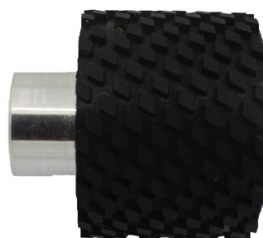

Adaptation machine: Portable/electric/pneumatic grinders

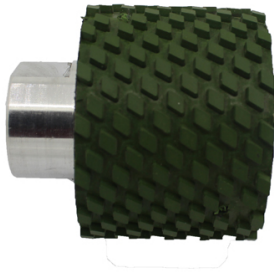

Place of origin: China

The following shows only part of the product, other products can be customized according to your needs
