

Introduction:

Diamond grooving concrete floor cutting disk is used for grooving, which is suitable for wall, hard stone, concrete pavement

and ground, refractory and other hard brittle non-metallic materials slot and grinding, carved antiskid lines, decorative

lines, which is used for kinds of road cutting machine, desktop cutting machine etc.

Features:

1. High efficiency and long lifespan.
2. Fast and smooth cutting, high performance.

Specifications:

Diamond Grooving Concrete Floor Cutting Disk:

Code No.	Diameter (mm/Inch)	Hole (mm)	Segment Height (mm)	Segment Thickness (mm)	Welding Method
BW-DGCB-001	125mm(5")	50	10/12	5-10mm	Laser Welded
BW-DGCB-002	150mm(6")	50	10/12		

The specifications are for reference, other specifications can be customized.
