

## Product Description

**Diamond segment for granite stone processing**,allows good sharpness and ideal chip removal,also it has the characteristics of good abrasivness,pefect cutting performance and high effective utilization rate.

Unique 'W' design of segment, the'V' slot allows ideal debris removal and better cooling, reduces cutting friction, which will keep good cutting sharpness and high cutting efficiency. Besides, this creative design will minimize cutting noise. diamond segment for stone cutting,good cutting result. This special design will not allow easy edge collapse, break, tapered slab etc.

## Feature:

1. High quality blade segment for granite,it is adopted to reduce the contact area between the cutter head and the cutting material, reduce the friction, reduce the cutting resistance and improve the cutting speed.
2. Unique design diamond segment will minimize cutting noise, increase water flow, accelerate cooling speed and prolong service life.
3. We produce popular w shape diamond segment of various shapes and sizes for selection. With good pre-sales and after-sales service, we have a large audience and are sold to many countries.

## Product Specification:

The Following Are Normal Specifications **Diamond W Shape Segment For Granite Stone Processing:**

Blade Diameter		Core Thickness(mm)	Segment Dimension(mm)	Segment Number(Pcs)
12 inch	300mm	2.2/2.0	40×3.2×15□20□	21
14 inch	350mm	2.4/2.2	40×3.2×15□20□	24
16 inch	400mm	2.8/2.4	40×3.2×15□20□	28
18 inch	450mm	2.8/2.6	40×3.2×15□20□	32
20 inch	500mm	3.2/2.8	40×3.2×15□20□	36
22 inch	550mm	3.2/3.0	40×3.2×15□20□	38
24 inch	600mm	3.6/3.2	40×3.2×15□20□	42
26 inch	650mm	4.0/3.6	40×3.2×15□20□	46
28 inch	700mm	4.0/3.8	40×3.2×15□20□	50
32 inch	800mm	4.5/4.2	40×3.2×15□20□	57

The above specifications is only for reference, other specifications may be available as per customer's demand.

### Product show

#### W Shape Unique Design Diamond Segment For Cutting Stone Manufacturer

**W Shape Segment**

**1.Clean Up Waste**

**2.Fast Cutting Stone**

**3.Helps To Cool The Saw Blade**

Special design W-type  
diamond saw blade segment

Prolong the service life  
of saw blade and reduce  
cutting friction.

Reduce the contact area  
between the cutter head  
and the cutting material.

Application:

**w shape diamond cutting segment** of 350-3500mm circular saw blades.stable cutting, narrow cutting gap, stone waste reduction.wet use only, silver welding, sandwich or multi-layer structure.diamond segments from professional supplier.

diamond granite segment for single blade,w type diamond segment for granite cutting blade is used for cutting large stone slabs.diamond granite segment for single blade.

K shape segment, M shape segment is easy for diamond opening.

Diamond segment for cutting granite, sandstone, kinds of hard stone with quartz.

The blade has good sharpness and high efficiency at the process of cutting and have long lifespan.

## FAQ

### 1. How to guarantee the quality of the product?

The company's products have standards, safety guarantees to control product quality, responsible for product quality for our customers, Established for more than ten years, as a professional and experienced diamond manufacturer, Boreway insists on providing our customers with the highest quality diamond tools .

### 2. Are you professional?

All of our company's products are diamond tools or related machinery products. They are highly professional and have maintained their pre-industry level. We are more professional and can help you find the ideal ideal for your market (dealer) or project (end user). Diamond tools.

### 3. What are our advantages?

Our teams is professional and the members have good study of the diamond tools. We offer quick response. Each messege or email will be replied within 24 hours.In the past few decades, Boreway diamond tools has made many orders of the OEM/ODM successfully . Some of the OEM/ODM services are free of charge!
