

Introduction:

Diamond grinding disc includes diamond metal grinding disc, resin bond diamond grinding disc, resin metal bond diamond grinding disc and resin polishing disc. Diamond grinding disc are used for hand grinding machine. The diamond grinding discs are used to grinding and polishing the surface of stone like granite, marble etc. They also can removal the surface's impurity of floor, concrete and so on. It has high efficiency and long lifespan.

Feature:

1. High grinding efficiency
2. Good polishing effect
3. Good performance and long lifespan

Specification:

The normal specification of diamond grinding disc:

Product Name	Code	Machine	Application	Size
Metal Bond Diamond grinding disc	BW-DPW-01	Hand grinding machine	Marble Granite Concrete etc	6" 8" 10"
Metal & Resin Bond Diamond grinding disc	BW-DPW-02			
Resin Bond Diamond grinding disc	BW-DPW-03			
Buff Grit Diamond grinding disc	BW-DPW-04			

The above specification just a reference for customers. Other specification can order by clients.
