

Introduction:

These diamond vacuum brazed wire and beads are used for wet cutting various kinds of stone. The double arrow design and pattern-set diamond on steel body are to extend tool lifespan and make full use of diamonds for best cutting efficiency.

Features:

1. Universal wet cutting wire for various kinds of stone.
2. Extra aggressive on marble and limestone quarrying, block squaring, profiling and slab cutting.
3. Could be used wet or dry, best with wet cutting for tool lifespan concern.

Specifications:

The followings are the normal specifications of our diamond vacuum brazed wire and beads:

Diameter (mm)	Bead Length (mm)	Bead Number (pcs/M)	Grit (#)	Reinforcement	Applications
11.0	12.5/11.0	28/30/32	30#~40#	Spring/Plastic	Quarrying/Block Squaring
10.0	12.0	28/30/32	30#~40#	Spring/Plastic	Quarrying/Block Squaring
8.8	11.0	28/30/32	30#~40#	Spring/Plastic	Stone Profiling
7.2	9.0	28/30/32	30#~40#	Spring/Plastic	Slab Cutting

The above specifications are for reference, other specifications can be ordered by customers.

Grade: Premium.
