

Introduction:

Diamond zero tolerance drum wheels for counter are for grinding and polishing sink holes on the slab,

Kitchens etc., which is the most effective way to grind and polish the tight radius.

Diamond zero tolerance drum wheels are designed for stock removal on granite marble by grinding away excess stone.

Diamond zero tolerance drum wheels are the fastest way to remove material after cutting out sink holes. They are used for very aggressive grinding applications and removal of stock on variety materials including granite, concrete, limestone, marble, block, terazzo and more.

Features:

1. High efficiency, long lifespan and fast milling speed.
2. Perfect balance with zero vibration and stable performance.
3. Smoother milling without stone edge damage.

Specifications:

The followings are the normal specifications of our diamond zero tolerance drum wheels:

Code No.	Diameter	Grit No.	Working Method	Segment Length	Connection
BW-ZTW-M01-01	25mm(1")	Rough	Wet or Dry	20mm	M14
BW-ZTW-M01-02	50mm(2")	Medium		35mm	5/8"-11
BW-ZTW-M01-03	75mm(3")	Hard		45mm	1/2"G
BW-ZTW-M01-04	100mm(4")				

The above specifications are for reference, other specifications can be ordered by customers.
