

Description:

Diamond bush hammer plates are used on manual grinding machines or auto/semi-auto bush hammered machines to process bush hammered litchi surface on granite, marble and other stone surface .

The processing surface can be very uniform and seems real and natural. The rollers can be changed conveniently, greatly reduced the production costs.

Feature:

1. High grinding efficiency and long lifespan.
2. Uniform, real and natural processing surface.
3. Much lower production costs compared with traditional processing method.

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo and brand on the pad. Any new products you want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Kindly Notice:

- 1.Please provide the material before purchase.

2.Before purchase, please provide the model of the machine.

3.Other specifications can be customized according to requirements.
