

Introduction:

Turbo segments for stone diamond core drill bits are suitable for smooth and fast drilling kinds of granite and many other hard stone. Under same bond conditions, the drilling speed of this turbo segments is much faster than normal flat segments, and all time the drilling speed is same.

Features:

1. Turbo segment provide higher drilling efficiency.
2. Wet or dry drilling.
3. Long lifespan and stable performance.

Specifications:

The followings are the normal specifications of our turbo segment for stone diamond core drill bit:

Product Name	Diameter	Segment Width	Segment No.	Applications
Turbo Segment For Stone Diamond Core Drill Bit	1.25"(32mm)	16x3.0x10	4	Granite
	1.38"(35mm)	16x3.0x10	4	
	1.50"(38mm)	16x3.0x10	5	Other Hard Stone
	1.63"(42mm)	16x3.0x10	5	
	1.75"(45mm)	16x3.0x10	6	
	1.88"(48mm)	16x3.0x10	6	
	2"(52mm)	16x3.0x10	7	
	2.25"(57mm)	24x3.5x11	5	
	2.50"(63mm)	24x3.5x11	6	
	2.75"(70mm)	24x3.5x11	7	
	3"(76mm)	24x3.5x11	8	
	3.25"(82mm)	24x3.5x11	9	
	3.50"(89mm)	24x3.5x11	10	
	4"(102mm)	24x3.5x11	10	
	4.25"(108mm)	24x3.5x11	11	
	4.50"(114mm)	24x3.5x11	11	
	4.75"(120mm)	24x3.5x11	11	
5"(127mm)	24x3.5x11	11		

The above specifications are for reference, other specifications can be ordered by customers.

Quality: Normal, Good quality, Premium.
