

Product Description

V shaped diamond segments for blade, will minimize cutting noise, increase water flow, accelerate cooling speed and prolong service life.diamond segment for granite cutting,marble and so on.

We have Segments Type: Layer Type, "K" type, "V" Type, Grooved Type, M Type, Taper Type etc. Cutting granite from over 500 kinds of granite in many countries. That have the main feature of fast cutting and long lifespan. Saving you more than 50% cost every year!

Feature:

- 1.The V-shaped design improves the chip removal capacity of the cutter head, and the stable cutting performance without breaking, chipping.
- 2.High quality blade segment for granite, stable cutting performance without breaking, chipping.Suitable for all kind of stone cutting, high cutting speed and high sharpness
- 3.The specially designed v-type diamond saw blade head can better clean up the waste, cool the saw blade during processing, allow more water flow, prolong the service life of the saw blade, reduce cutting friction, maintain good sharpness and cutting degree, and maintain the high performance of the saw blade.

Product Specification:

The Following Are Normal Specifications **V Shaped Diamond Segments For Blade**:

Segment length	Segment Size
22mm	14.0/13.5/13.0×15.0/14.0mm

The above specifications is only for reference, other specifications may be available as per customer's demand.
