

Applicable materials

Diamond handpads with high quality diamond powder, plastic foam and adhesive to ensure high quality products. Used for grinding and polishing of granite, marble, quartz, glass, ceramics, wood, concrete, knives, fiberglass and other brittle materials.

Easy to use, stable quality, high heat resistance, high efficiency, high speed and high brightness.

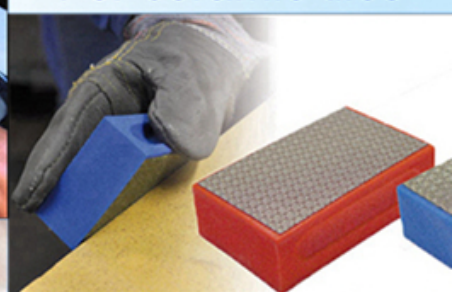

Applicable materials

For glass cups

For concrete products

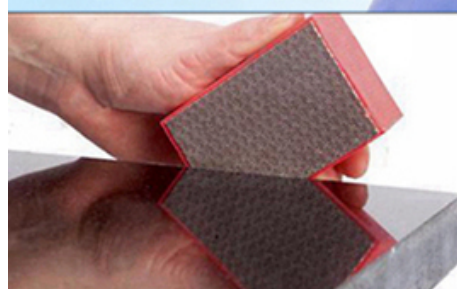

For ceramic tiles

For wooden board

For stone slabs

For knife Sharpening

Specification

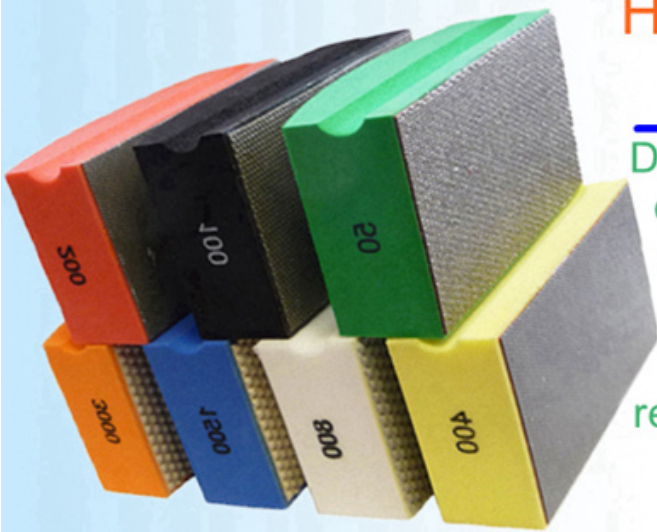

Brand name	Boreway
Product name	Diamond hand pads
Materials	Diamond powder and Plastic foam
Specification	90*55mm(Straight) 100*55mm(Curved)
Grit	Electroplated:60#,120#,200#,400# Resin:800#,1500#,3500#,7000#
Applicable materials	Stone,glass,concrete,wooden, metal,knife and so on.
Diamond handpads can be wet and dry use, Add a few drops of water wet grinding, the effect will be better.	

Advantage

High quality raw materials to ensure quality

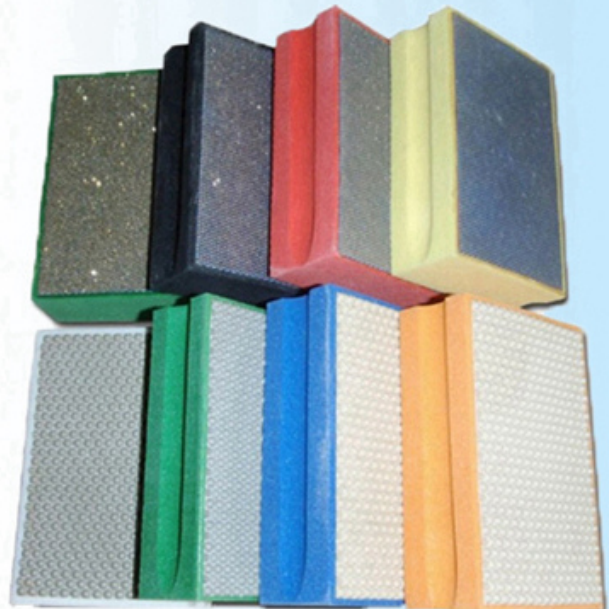

Diamond hand pads with high quality diamond powder, plastic foam and adhesive to ensure high quality products.

With long lifespan and good wear resistance characteristics

Bonding firm, not easy to fall off

The use of strong adhesive to ensure that the grinding and plastic foam adhesive close, in the course of use will not fall off.

Fast and efficient, glazing fast, high brightness

Diamond handpads have high polishing speed and brightness, in the grinding and polishing, The handpads do not pollute the materials. They have high efficiency, heat resistance and compressive resistance.

Packing

Shipping & Expressing

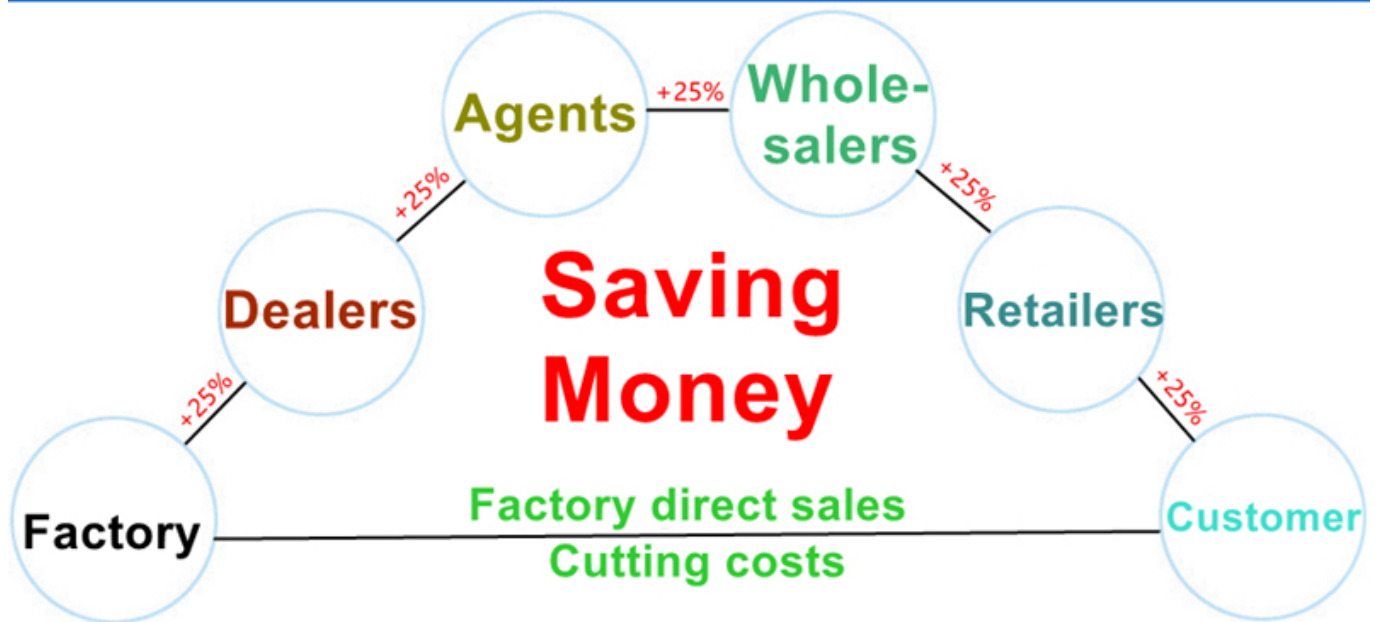

中外运敦豪

We co-operation with a number of express logistics, such as Debon, SF, EMS, TNT,DHL,UPS and so on.Please contact us if you want other express delivery. And fees will be charged according to the actual.

Factory direct sales

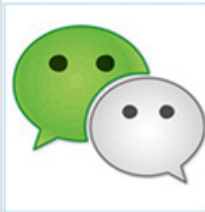

common problem

Size error

Due to some factors in the production process, the product may have a very small error doesn't affect the normal use.

After-sales

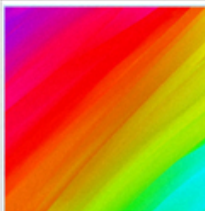

If you have any questions, please do not hesitate to contact us, we will give you a detailed answer.

Shipping

We co-operation with a number of express logistics, make sure the goods are in good condition and then signed.

Aberration

Because the reasons for shooting light may have chromatic aberration, chromatic aberration is not quality problem.
