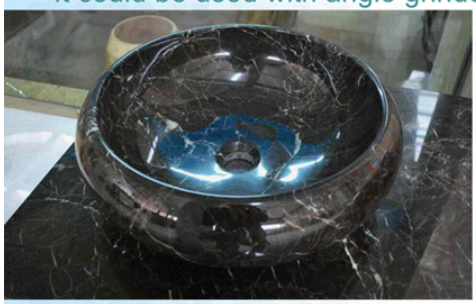
Applicable materials

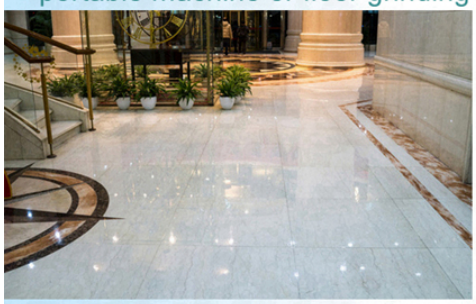
Marble granite artificial stone and other stone processing

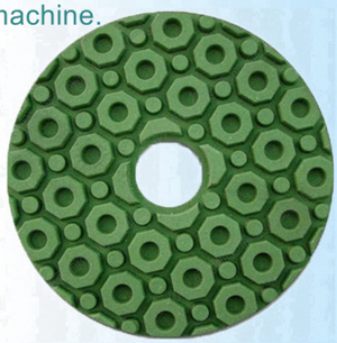
The diamond polishing pads has complete specification, more flexible and good performance.It is ideal in polishing many shape of stones like flat slab,convex corner and etc. It could be used with angle grinder machine.



Polishing the floor which is made by stone

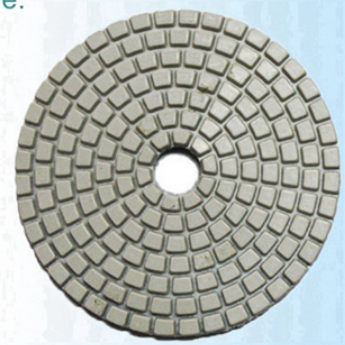
The diamond slab floor polishing pad be used for polishing slab floor,stage of the granite,marble etc.It is used with portable machine or floor grinding machine.





Grinding and polishing ceramic

The diamond polishing pads for ceramic tile etc are used for polishing and semi-polishing the ceramic , glazed tile, antique brick etc.Be used with hand-held machine, polishing and semi-polishing machine.



Concrete floor or hardener ground polished

The diamond polishing pads for concrete floor are used for polishing the concrete floor of the industrial floor, warehouse, parking etc.In particular could be suitable for polishing the liquid hardener floor works.Could be work from coarse to fine. Be used with floor grinding machine.

Description

Brand	Boreway
Name	Diamond polishing pads
Diameter	3" 4" 5" 6" 7"
Materials	Diamond powder and resin
Grit	50# 100# 200# 400# 800# 1500# 3000#
Applicable machines	Angle grinder handheld grinder floor grinding machines
Applicable materials	Marble granite quartz concrete ceramic tiles and so on

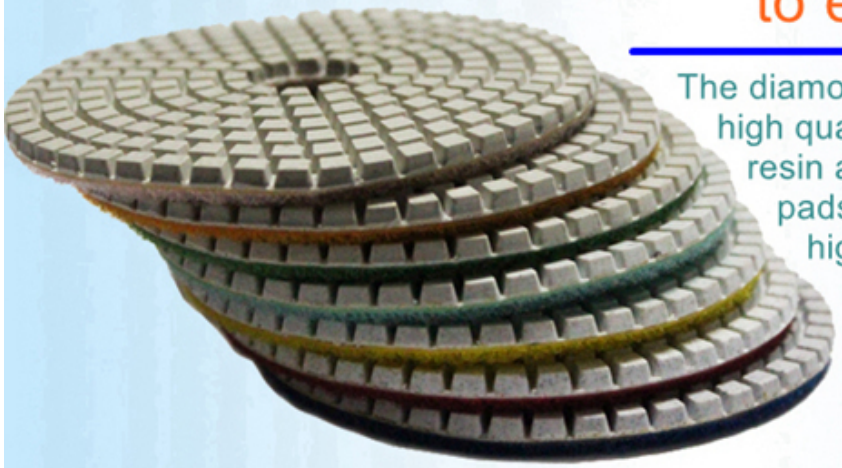
Diamond polishing pads life and grinding effect will be affected by the ground hardness, grinding machine weight, counterweight, Rotating speed， the whether to add water and the water volume, polishing pads grit, quantity, grinding time and experience and other factors.Diamond polishing pads can be equipped with a variety of floor refurbished machines and floor grinding machine, with the use of large grinding machine can improve the grinding efficiency,and make the material evenness better

Advantage

High-quality raw materials to ensure quality



The diamond polishing pads are made of high quality diamond powder and unique resin adhesive,so that the polishing pads have strong grinding force, high wear resistance and long lifespan.

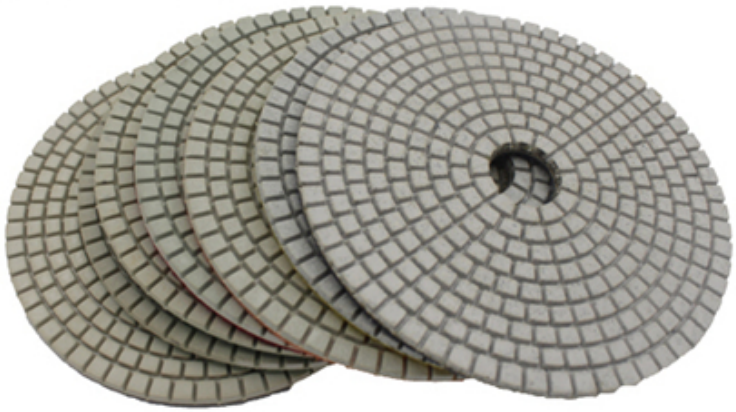
Nylon adhesive cloth strong adhesion

Adopt the high-quality nylon sticky cloth, the adhesive is firm, the reusable is not easy to be damaged, the back is printed with the granularity of the product, easy to use, the back LOGO can be customized.

Fast and efficient not pollute the material

Diamond polishing pads have high polishing speed,high brightness, in the grinding and polishing, polishing pads do not pollute the material.As the colorful polishing pads grinding quartz will pollute the stone,we developed a white polishing,pads specifically for quartz grinding,solve the pollution problem.

Packing



Shipping & Expressing

TNT sure we can

UPS

SF EXPRESS 顺丰速运

DHL 中外运敦豪

EMS

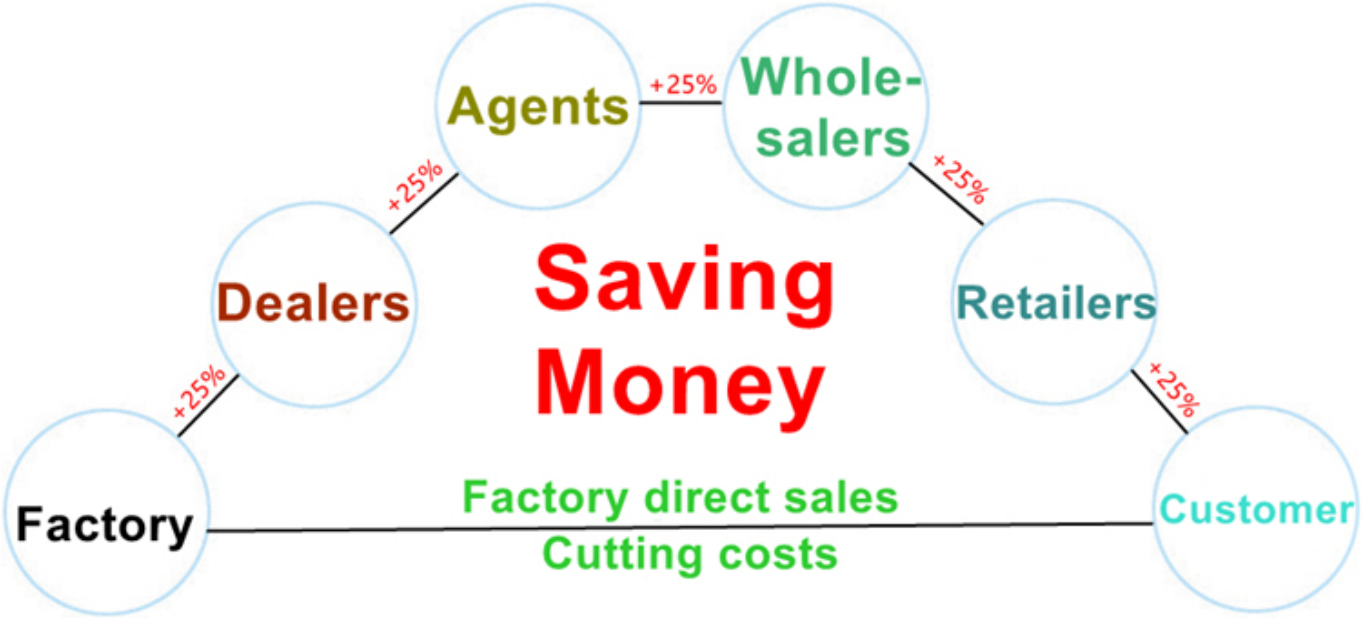
FedEx Express

We co-operation with a number of express logistics, such as Debon, SF, EMS, TNT,DHL,UPS and so on.Please contact us if you want other express delivery. And fees will be charged according to the actual.

Precautions

1. Do not use the grinding pads for cutting operation, please use a professional cutting blades.
2. Dry grinding, please do not use for a long time, so as not to affect the lifespan and grinding effect.
3. Operators must wear protective glasses, protective masks, overalls, protective shoes, gloves and other protective equipment.
4. When you grinding,it may cause serious accidents if you don't operate according to the rules.

Factory direct sales



common problem

Size error

Due to some factors in the production process, the product may have a very small error doesn't affect the normal use.

After-sales

If you have any questions, please do not hesitate to contact us, we will give you a detailed answer.

Shipping

We co-operation with a number of express logistics,make sure the goods are in good condition and then signed.

Aberration

Because the reasons for shooting light may have chromatic aberration, chromatic aberration is not quality problem.
