Resin bond diamond grinding pads are used for grinding and polishing concrete surfaces. They are made of a resin matrix with diamond particles embedded in it. The diamond particles are the abrasive material that does the grinding. The resin matrix holds the diamonds in place and provides a bond to the backing plate. The pads are used in a sequence from coarse to fine to achieve the desired finish.

Product Features:

10mm Thickness Is
Support For Long Life

Size: 3 Inch

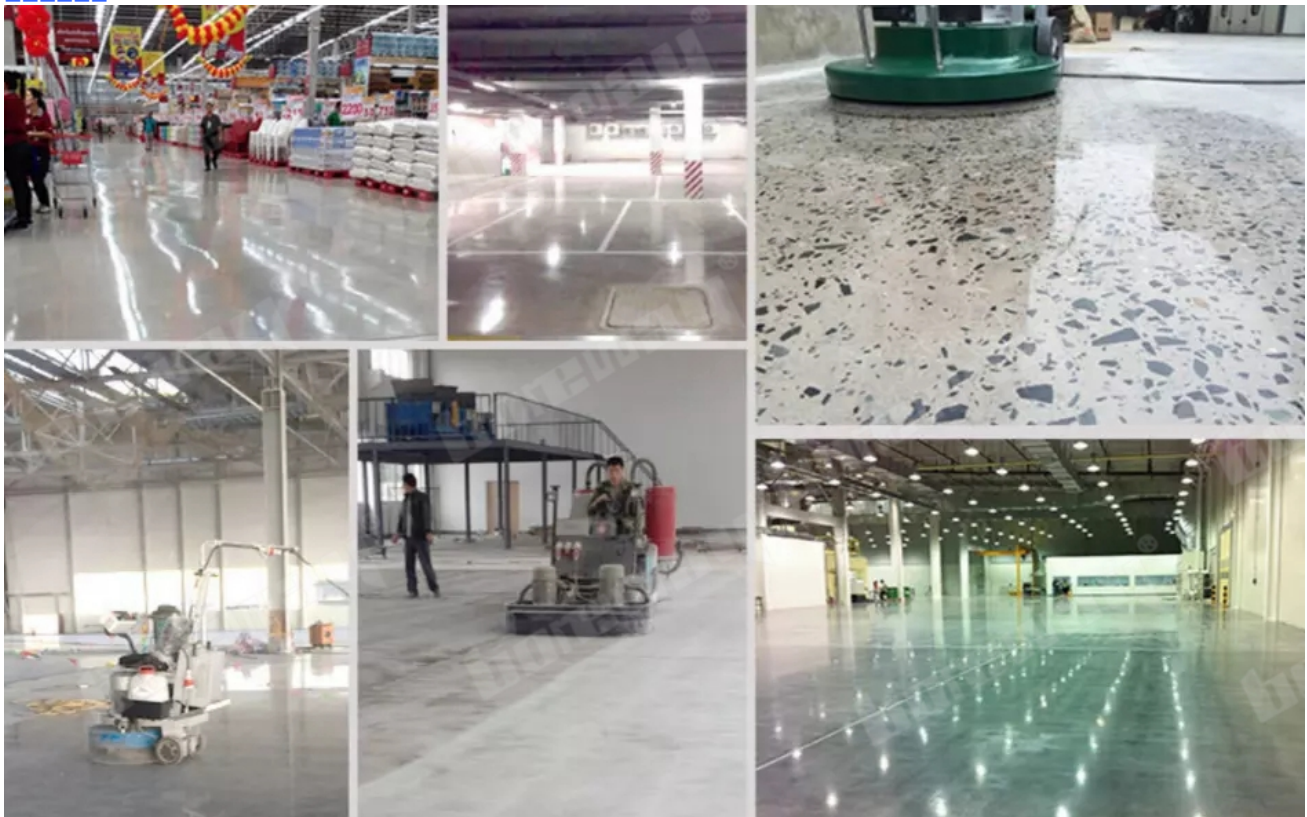

3 Inch Resin Bond Diamond Concrete Grinding Pads For Concrete

Product Features:

3 Inch diameter, 10mm thickness, resin bond diamond grinding pads for concrete. They are used for grinding and polishing concrete surfaces. The diamond particles are the abrasive material that does the grinding. The resin matrix holds the diamonds in place and provides a bond to the backing plate. The pads are used in a sequence from coarse to fine to achieve the desired finish.
