

Boreway **Sandblasting** **Kit** **Includes** **Sandblaster** **Kit** **Accessories** **Kit** **Accessories** **Kit** **Accessories**

Accessories:

The kit includes a sandblaster, a sandblasting gun, a hose, a nozzle, and a nozzle holder. The sandblaster is powered by an air compressor. The sandblasting gun is used to apply the sand to the surface being cleaned. The hose connects the sandblaster to the sandblasting gun. The nozzle is used to direct the sand onto the surface. The nozzle holder is used to hold the nozzle in place while sandblasting. The kit also includes a sandblasting mask, a sandblasting suit, and a sandblasting helmet. The sandblasting mask is used to protect the eyes and face from the sand. The sandblasting suit is used to protect the body from the sand. The sandblasting helmet is used to protect the head and neck from the sand. The kit also includes a sandblasting tool kit, a sandblasting brush, and a sandblasting scraper. The sandblasting tool kit is used for general sandblasting. The sandblasting brush is used for cleaning large surfaces. The sandblasting scraper is used for removing stubborn dirt and grime.

Accessories:

The kit includes a sandblaster, a sandblasting gun, a hose, a nozzle, and a nozzle holder.

1. Sandblaster
2. Sandblasting gun
3. Hose
4. Nozzle

**Multi Point
Bush Hammer Roller**

Applications:

This roller is used for creating a multi-point bush hammer finish on various stone and concrete surfaces. It is ideal for creating a textured, non-slip surface on floors, walls, and countertops. The roller's design allows for consistent and uniform results across different materials.

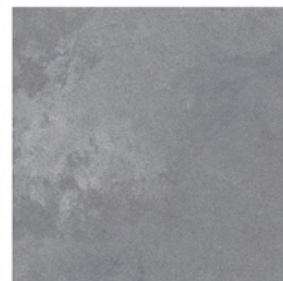

Marble

Sandstone

Granite

Concrete

Applications include:

1. Creating a textured, non-slip surface on floors, walls, and countertops.
2. Achieving a consistent and uniform finish across different materials.
