

DRILL BIT SPECIFICATIONS:

DRILL BIT SPECIFICATIONS:

D12 * 100 mm * 10B clamping drill bit specifications: This drill bit is designed for drilling in steel, stainless steel, cast iron, and other hard materials. It features a double-flute design and a 118-degree point angle. The drill bit is made of high-speed steel (HSS) and is available in various lengths and diameters. The drill bit is suitable for use in metalworking, construction, and industrial applications. The drill bit is easy to use and provides excellent drilling performance.

FEATURES:

1. High-speed steel (HSS) material
2. Double-flute design
3. 118-degree point angle
4. Suitable for drilling in steel, stainless steel, cast iron, and other hard materials

APPLICATIONS:

This drill bit is used for drilling in steel, stainless steel, cast iron, and other hard materials. It is commonly used in metalworking, construction, and industrial applications. The drill bit is suitable for use in various diameters and lengths. The drill bit is designed to provide excellent drilling performance and is easy to use.

The drill bit is made of high-speed steel (HSS) and is available in various lengths and diameters. The drill bit is suitable for use in metalworking, construction, and industrial applications. The drill bit is designed to provide excellent drilling performance and is easy to use.

DRILL BIT:

D12 mm diameter * 100 mm * 10B clamping drill bit specifications:

Diameter: 12mm

Clamping: 10B clamping

Length: 100 mm

Material: HSS / High-speed steel

Flutes: Double-flute

Point angle: 118 degrees

The drill bit is used for drilling in steel, stainless steel, cast iron, and other hard materials. It is commonly used in metalworking, construction, and industrial applications. The drill bit is suitable for use in various diameters and lengths. The drill bit is designed to provide excellent drilling performance and is easy to use.

The drill bit is made of high-speed steel (HSS) and is available in various lengths and diameters. The drill bit is suitable for use in metalworking, construction, and industrial applications. The drill bit is designed to provide excellent drilling performance and is easy to use.
