

Table 1: Specifications of the Beads

Diameter / mm	Applications	Connecting material	Beads/meter
11.5	Concrete Engineering	Rubber	40
11.5	Granite mine	Rubber	40
11	Concrete Engineering	Rubber/plastic	40
11	White marble mine	Spring	28-30
11	Green marble mine	Spring	28-30
11	Granite mine	Rubber/plastic	40
11	Granite block cut	Plastic	37
10.5	Concrete Engineering	Rubber	40
10.5	Granite block cut	Plastic	37
10.5	Marble block cut	Plastic	30
9	Marble	Plastic	33
9	Granite	Plastic	37
8.8	Granite	Plastic	37
8.8	Marble	Plastic	33
8.5	Granite	Plastic	37
8.5	Marble	Plastic	33
Other specification can be customized			

The beads are made of high quality materials and are designed to be durable and long-lasting. They are available in various diameters and materials to meet different applications. The beads are used in various industries such as construction, mining, and agriculture.

Notes:

- The beads are made of high quality materials and are designed to be durable and long-lasting.
 - The beads are available in various diameters and materials to meet different applications.
 - The beads are used in various industries such as construction, mining, and agriculture.
 - The beads are designed to be easy to install and use. They are available in various colors and finishes to match different environments.
- The beads are made of high quality materials and are designed to be durable and long-lasting. They are available in various diameters and materials to meet different applications. The beads are used in various industries such as construction, mining, and agriculture.

Bridge reconstruction

Road construction

Granite blocks

Marble blocks
