

Table 1: Summary of test results

The test results show that the test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range.

The test results show that the test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range.

Table 2: Summary of test results

1. The test results show that the test results are generally good, with most of the test results falling within the acceptable range.
2. The test results show that the test results are generally good, with most of the test results falling within the acceptable range.
3. The test results show that the test results are generally good, with most of the test results falling within the acceptable range.
4. The test results show that the test results are generally good, with most of the test results falling within the acceptable range.
5. The test results show that the test results are generally good, with most of the test results falling within the acceptable range.

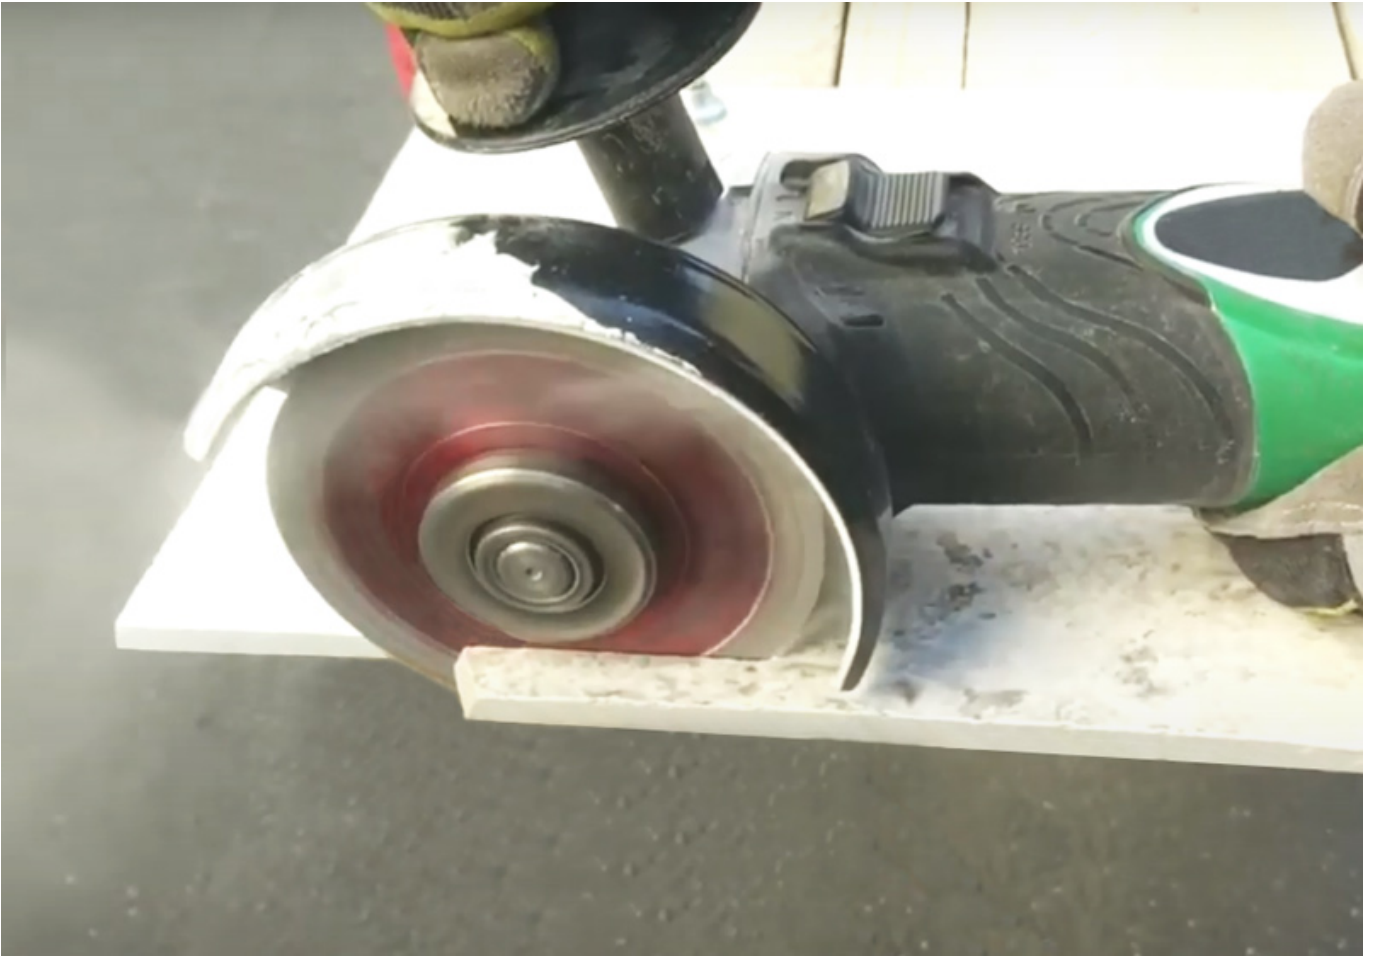

Table 3: Summary of test results

The test results show that the test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range.

Test Results	Test Results (Mean)	Test Results (Standard Deviation)	Test Results (Coefficient of Variation)	Test Results (Range)
125 Test Results	22.23	10	1.4	Test Results Range

The test results show that the test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range. The test results are generally good, with most of the test results falling within the acceptable range.

Test Results		Test Results (Mean)	Test Results (Standard Deviation)	Test Results (Coefficient of Variation)
Test Results	Test Results			
5	105	20	1.4	10
4.5	115	22.23	1.4	10
5	125	22.23	1.4	10
9	230	22.23	2.0	10
