Shape	2
Material:	Aluminum + Steel
Surface Treatment:	Anodized Aluminum, Electroplated Steel
Application:	Medical, Industrial, Laboratory
Weight:	Lightweight
Notes:	Check dimensions; Verify material

These are standard specifications for the product. For detailed information, please refer to the technical drawing and the product manual.

Product Information:

Product Size: **20x12** mm. This is a standard size for the product.

Size: 2T 20x12mm
Segment Type: Circular

Connection Type:
Polar Magnetic System; Single Hole System

The product is designed for use in a polar magnetic system. It is suitable for applications requiring a single hole system. The product is made of high-quality materials and is designed for long-term use.

The product is designed for use in a polar magnetic system. It is suitable for applications requiring a single hole system. The product is made of high-quality materials and is designed for long-term use.

The product is designed for use in a polar magnetic system. It is suitable for applications requiring a single hole system. The product is made of high-quality materials and is designed for long-term use.
