

## Product Introduction:

### Overview:

Boreway provides a comprehensive range of diamond grinding and polishing pads, designed for professional use in stone and metal finishing. Our products are known for their high performance, durability, and consistent results. Boreway offers a wide selection of grits and diameters to meet various project requirements. For more information, please visit our website or contact our sales team. Polishes.

Our diamond grinding and polishing pads are made from high-quality synthetic diamond particles, providing exceptional cutting and polishing capabilities. Available in various diameters (3", 4", 5", 6", 7") and grits (50#, 100#, 200#, 400#, 800#, 1500#, 3000#), they are suitable for a wide range of materials including granite, marble, quartz, and ceramic. The pads are mounted on a durable holder using Velcro and rubber, ensuring a secure fit and easy replacement. The resin bond and electroplate processes used in our pads ensure long life and consistent performance. Feedback from our customers highlights the ease of use and superior results achieved with our diamond pads. For more information, please visit our website or contact our sales team. Polishes.

Name	Diamond Grinding And Polishing Pads
Model	BW-DGPP
Diameter	3" 4" 5" 6" 7"
Grit	50# 100# 200# 400# 800# 1500# 3000#
Quality Class	Premium Standard Economical
Holder	Velcro and Rubber
Process	Resin bond and Electroplate
Applicable Materials	Granite, marble, quartz, ceramic and other stones
