

Polishing and Grinding Pads:

Overview:

Boreway offers a wide range of diamond grinding and polishing pads for various applications. These pads are designed to provide efficient and effective results on a variety of surfaces, including granite, marble, quartz, and ceramic. Boreway pads are available in different grit sizes and grades, allowing you to choose the best option for your specific needs. For more information, please visit our website or contact our customer service team. Boreway Polishes.

Our diamond grinding and polishing pads are made from high-quality diamond particles, which provide superior cutting and polishing performance. They are available in various diameters (3", 4", 5", 6", 7") and grit sizes (50#, 100#, 200#, 400#, 800#, 1500#, 3000#). The pads are designed to be used with a variety of holders and are compatible with both resin bond and electroplate processes. We offer a wide range of quality classes, from premium to economical, to suit different budgets and requirements. For more information, please visit our website or contact our customer service team.
