

Introduction

High precision brazing frame for diamond circular saw & core drill is a newly developed machinery for the industry. It's easy to operate, precise, stable & high cost to performance ratio, comparing to imported machine. The machine improves the brazing precision & torque strength of diamond circular discs and reduces sharpening & labor cost significantly.

Features:

We adopt easy design of halving to fix the position, which enable the worker to use the rack with basic training.

Specification:

Brazing Range: Diameter 20-300mm, Height 40-500mm,

Brazing speed: 15-20 second per segment

Positioning accuracy: Surface of segment tolerance: $\pm 0.05\text{mm}$ Blade symmetry tolerance: $\pm 0.05\text{mm}$
