

Boreway Arix Diamond Segment for Core Drill Bit Cutting Concrete Stone

Descriptions:

Arix Diamond Segment for Stone:

During the production of **arix diamond segment for stone**, using the Arix technology can 100% control the distance between the diamond grains, so diamond grains can distribute uniformly in segments, we call this segment as “Arix Segment” which cutting efficient and using life are increased greatly compared to the normal segments.

Specifications:

We are instrumental in providing to our valuable customers excellent quality **Arix Diamond Segment for Stone** which are available with following specification:

300-600mm Granite Edge Cutting Segment					
Diameter		Segment Size			No.of teeth
Inch	mm	length	Thickness	Height	Number
12	300	40	3.0	20	21
14	350	40	3.2	20	24
16	400	40	3.6	20	28
18	450	40	3.8	20	32
20	500	40	4.2	20	36
24	600	40	4.6	20	42

Besides 350mm Arix Matrix Shape **Arix Diamond Segment for Stone**, All of our products have been strictly tested before access to market. Other specifications can be customized according to requirements.

Advantage:

- 1) High quality, smooth cutting without chip, easy welding, save electric, reduce the stone waste
- 2) **Arix diamond segment for stone** universal wet cutting for different kinds of stone (granite marble sandstone etc)
- 3) Soft to hard bonds designed for cutting hard to soft materials
- 4) Sandwich or grooved segment with any shapes for single or multi-blade as required.
- 5) Reasonably priced with excellent service and consistent quality.
- 6) Guarantee fast smooth cutting on each stone.

Product Details:

Arix Diamond Segment for Stone:

Applications:

Arix diamond segment for stone is widely used for cutting and drilling granite, marble, cured concrete, reinforced concrete, brick, block, masonry and natural stone materials

Applicable materials

To meet your demands for cutting different materials, such as granite, marble, quartz stone, sand stone, microcrystalline stone, volcanic rock, concrete, glass, ceramic, masonry etc. Different segments recipe were been developed by our company.

Cutting Effect:

Advantages:

1. Ideal edge trimming quality best .
2. Excellent comprehensive cutting performance.
3. High cutting efficiency, meanwhile, it has a long lifespan.

Related Products:

Normal Shape Edge Segment

W Shape Edge Segment

K Shape Block Segment

V Shape Block Segment

M Shape Block Segment

Slant Slot Edge Segment

Turbo Shape Edge Segment

U Slot Edge Segment

About us:

Arix Diamond Segment for Stone:

Packing & Delivery:

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1. If we want to buy diamond segment, how could we know the quality?

You can buy diamond segment with a small quantity first, test the quality and our service, it will be much better for our long term cooperation. For small quantity, you don't need to take risk in case the quality doesn't fit your market.

2. What could we do if we find your diamond segment are not in good performance?

Please tell us the detailed information of the cutting, for example:

- 1). The RPM of the machine, the cutting object.
- 2). The detail picture of diamond segment after use, e.g. the cutting side of diamond segment.
- 3). Do you feed enough cooling water.

3. What is the delivery way?

Express Courier Service, Sea Cargo and so on. We give the advice according to actual situation for customers make decision.

Please note:

Please use high frequency silver welded machine instead of fire to make the brazing, the welding time is only a few seconds, otherwise the diamond inside the segments will probably be damaged by the high temperature, then the cutting performance will be reduced!
