Applications:

Silver welded diamond segment core drill bit with hard to soft aggregates, green concrete or abrasive material.

Welding Type: Silver or Laser.

Wet Use.

Advantage:

1. Our bit bit head adopts diamond sheet material and metal matrix (Ti + Cr + Ni + CO, etc.) to form chemical bond, which can reduce threshing, improve cutting edge and prolong

service life.

2. Change single drilling to combination of grinding and cutting edge drilling (high strength diamond), optimize the drilling performance;
3. Good sharpness, fast drilling speed and high efficiency;
4. Good wear resistance coefficient, long service life and high comprehensive cost performance!

Note: the operator is required to add a certain amount of cooling water, and the spray flow should be large, so that it has better cooling effect, so as to improve the service life of the drill and reduce the cost!
