

Boreway Tungsten Carbide Fickert Diamond Bush Hammer Roller Tool for Concrete Grinding

Advantages:

Tungsten Carbide Diamond Bush Hammer Roller

1. The grit of bush hammer face can be adjusted.
2. Works with high efficiency, 5-6 times faster than that of manual processing.
3. Mainly designed for texturing and roughening of smooth stone surfaces and is especially important for performing operations to create anti-slip surfaces on stone floors and steps, etc.

Introduction:

Tungsten Carbide Diamond Bush Hammer Roller

Fickert Length:	L140MM
Shape:	Fickert
Type:	Abrasive Block
Material:	Alloy And Steel Base
Application:	Bush Hammer For Grinding
Machine:	Automatic Grinding Machine
Usage:	Bush Hammer Roller for Polishing

Tungsten Carbide Diamond Bush Hammer Roller is used on automatic grinding machines, for grinding and calibrating the stone slabs like granite, marble, etc. When assembled with a bush hammer roller, It becomes a bush hammer plate and can be used for texturing the surface of stone slabs and creating different bush-hammered profiles at high efficiency.

Tungsten Carbide Diamond Bush Hammer Roller for Stone and Concrete Grinding is used on automatic grinding machine to make Lichi surface on stones. Characterized by high grinding efficiency and superior lifespan.

Specifications:

The followings are the normal specifications of our **Tungsten Carbide Diamond Bush Hammer Roller**:

Diameter	Grains No.	Segment Dia.	Type	Material
----------	------------	--------------	------	----------

L140MM,L170MM	99S	4.7MM	Abrasive Block	Carbide And Steel
---------------	-----	-------	----------------	-------------------

The above specifications are for reference, other specifications can be ordered by customers.

Feature:

1. Durable metal and diamond compound.
2. Effective for grinding natural stones and concrete to get bush hammer effect.
3. Different granularities and sizes as requested for the diamond roller.
4. Competitive price and superior quality.

Product Details:

Tungsten Carbide Diamond Bush Hammer Roller

Application:

Tungsten Carbide Diamond Bush Hammer Roller is used on automatic grinding machines, for grinding and calibrating the stone slabs like granite, marble, etc. When assembled with a bush hammer roller.

Tungsten Carbide Diamond Bush Hammer Roller is used sophisticated welding technology and selecting high quality aluminum alloy to casting, bushhammered's grit can be changed through the adjustment of spring elasticity on bush hammer, manual grinding machine press. Both enlarging spring's interval to reduce spring elasticity and reducing machine's press can enhance bush hammer vibration to make bushhammered face rough. Widely used on granite, marble sandstone to make rough surface.

Marble

Granite

Sandstone

Quartz stone

Applications Machine:

Tungsten Carbide Diamond Bush Hammer Roller is used on automatic grinding machines, for grinding and calibrating the stone slabs like granite, marble, etc.

Diamond bush hammer plates and roller is a construction tool used for texturizing and renew concrete. Floor bush hammer plates can adapt to several kinds of grinder, from simple hand-held hammers to large electric machines, but the basic function of the regular bush hammer is always the same - 30pcs/45pcs/60pcs of conical or pyramidal carbide tips welded at the top of a large metal plate. The repeated hit of these carbide tips into stone or concrete surface creates a rough, pockmarked texture that looks like naturally weathered rock.

About Us:

Packing & Delivery:

PS:

- 1.Tools packing in carton cases
- 2.By Air/Sea for batch goods, Airport/Port receiving
- 3.Less than 45kg, generally delivery by express(Door to Door)
- 4.When tools are in large quantities, they are packing in wooden cases

Our Service:

- 1.Low MOQ: It can meet your trial order need well.
- 2.OEM Accepted: We can produce according to your sample or drawings.
- 3.Good Service: We treat our clients as God with high professionalism and passion.
- 4.Good Quality: We have strict quality control system. Good reputation in the market.
- 5.Fast Delivery: We have big discount from forwarder.

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo and brand on the pad. Any new products you want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Kindly Notice:

- 1.Please provide the material before purchase.
- 2.Before purchase, please provide the model of the machine.
- 3.Other specifications can be customized according to requirements.
