

Boreway Wholesale Bush Hammer Roller Head Tool With Carbide Segment For Granite Sandstone Marble Limestone

Introduction:

Wholesale Bush Hammer Roller Head

The Roughness of the bush hammered surface can be adjusted with our bush hammer through adjustment of spring elasticity on the bush hammer, or through the pressure of the manual grinding machine. Loosening spring elasticity or lessening pressure with increased roughness of hammering will result and tightening the springs or increasing machine pressure will reduce roughness to give the bush hammered surface a finer look.

3. Good Service: We treat our clients as God with high professionalism and passion.
4. Good Quality: We have strict quality control system. Good reputation in the market.
5. Fast Delivery: We have big discount from forwarder.

FAQ:

1. How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present, so many people in the world use Chinese products, because of the high quality and most competitive prices. We are a professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2. Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing.

It is very important to give us feedback, we appreciate it.

3. Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo and brand on the pad. Any new products you want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.

Kindly Notice:

1. Please provide the material before purchase.
2. Before purchase, please provide the model of the machine.
3. Other specifications can be customized according to requirements.
