

Introduction:

Crown segment for construction diamond core drill bits are suitable for drilling cured reinforced concrete, green concrete or stone material. Under same bond conditions, the drilling speed of this turbo segments is much faster than normal flat segments.

Features:

- 1.Crown shaped segment provide smooth drilling.
- 2.Good balance and stable performance.

Specifications:

The followings are the normal specifications of our crown segment for construction diamond core drill bit:

Product Name	Diameter	Segment Width	Segment Height	Applications
Crown Segment For Construction Diamond Core Drill Bit	14mm	2.5mm	10mm	Concrete Brick Masonry
	16mm (5/8")	2.5mm	10mm	
	18mm	2.5mm	10mm	
	3/4"(20mm)	2.5mm	10mm	
	7/8"(22mm)	2.5mm	10mm	
	1"(25mm)	2.5mm	10mm	
	1.18"(29mm)	2.5mm	10mm	
	1-1/4"(32mm)	2.5mm	10mm	
	1-3/8"(35mm)	2.5mm	10mm	
	1-1/2"(38mm)	3.0mm	10mm	
	1.63"(42mm)	3.0mm	10mm	
	1-3/4"(45mm)	3.0mm	10mm	
	1.88"(48mm)	3.0mm	10mm	

The above specifications are for reference, other specifications can be ordered by customers.
