

Introduction:

1.D350x8.5x2.8x50mm Diamond Cutting Wheel For Marble specializing in the fine processing of marble slab, superior product performance and stability. Straight cutting is smooth and the collapse rate is low.

2.Wet cutting marble slab, in particular cut beige marble slabs of medium and high hardness. Such as (Magnolia, Spanish beige, lightning, brown net) and so on.

3.Cutting range: can cut more than 91% of the marble slab, for the hard and brittle marble slab;Cutting effect is good, the collapse rate is low.

In the actual use of the equipment of the infrared bridge cutting machine, the cutting lifespan as below:

The lifespan of the cutting board (many different boards) is in the range of 1000-1500 squares; The lifespan of cutting a single type specification can reach more than 1500 squares (The cutting life may affect by the cutting machine, the environment, and the method of use ect)

Features:

1. Sharp cutting, wear-resistant.
2. Auxiliary with angle grinder,multi-cutter machines
3. Fast cutting speed and small cutting gap.
4. High cutting efficiency and less chipping.

Specification:

The normal size of D350x8.5x2.8x50mm Diamond Cutting Wheel For Marble :

Diameter (mm/Inch)	Inner Hole (mm)	Segment Height (mm)	Steel Blank Type	Welding Method
250mm(10")	50/60mm	7/8/10	Normal & Silent	Silver Welded
300mm(12")	50/60mm	7/8/10		
350mm(14")	50/60mm	7/8/10		
400mm(16")	50/60mm	8/10		
450mm(18")	50/60mm	8/10		
500mm(20")	50/60mm	8/10		
550mm(22")	50/60mm	8/10		
600mm(24")	50/60mm	8/10		
625mm(25")	50/60mm	8/10		
700mm(28")	50/60mm	8/10/12		
725mm(28")	50/60mm	8/10/12		
750mm(30")	50/60mm	8/10/12		
800mm(32")	50/60mm	8/10/12		

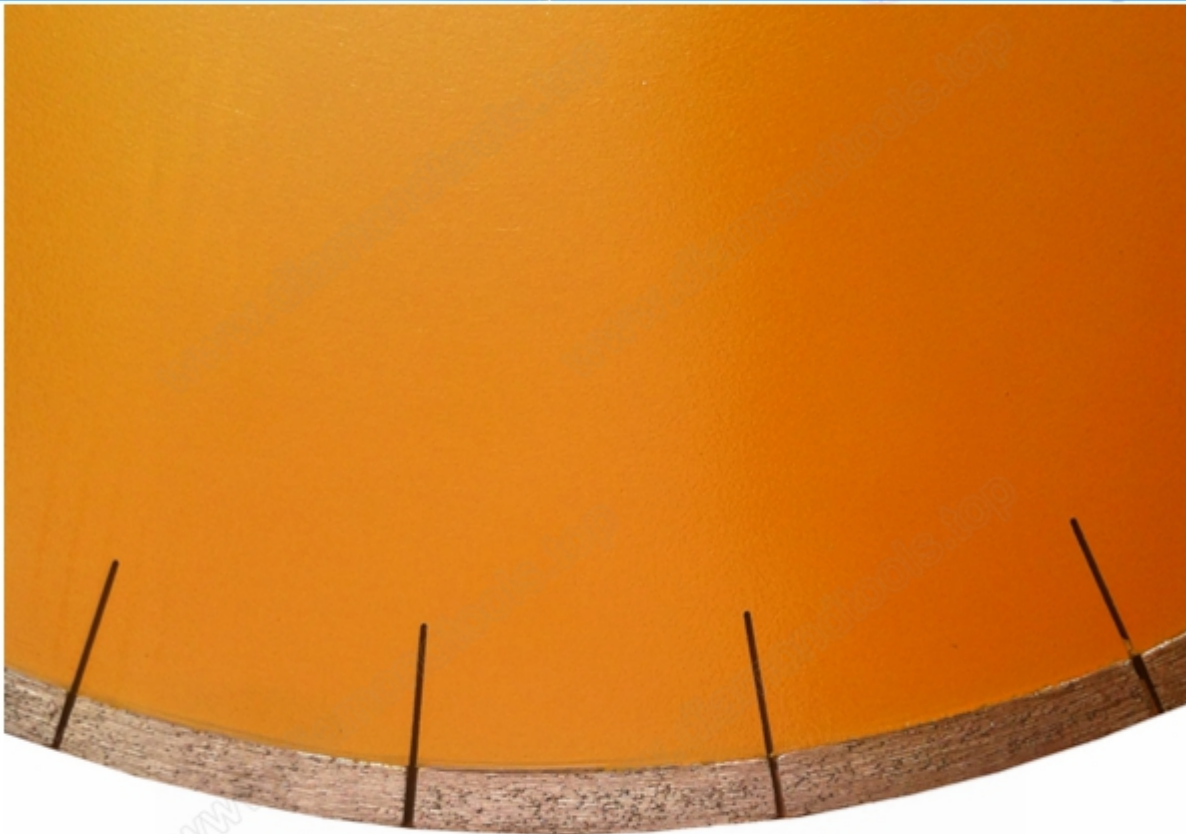

The above specifications are for reference, other specifications can be ordered by customers.
