

Product Description

Frankfurt bush hammer roller manufacturer is more convenient for replacing them when they are exhausted.

- 1) Bush Hammer Roller For Granite, for floor preparation before laying new coatings.
- 2) To remove old glue and resin coatings, in particular thick resins.
- 3) For stone surface fabricating, making bush hammered effect for stone products.
- 4) To expose the aggregate in concrete floors to prepare for concrete polishing.
- 5) The repeated hit of these tips into stone or concrete surface creates a rough, pockmarked texture that looks like naturally weathered rock.
- 6) Use as a scarifying machine with the advantage that it is aggressive but gentle enough not to “dig” uncontrollably into the floor surface.
- 7) Creates slip-resistant finish on granite and marble, breaks down coatings standard diamonds can't touch, prepares surface for application of thin-set overlay.

Feature:

1. Can be customized
2. Long Life, Rough Grinding
3. Applied to a variety of materials
4. Frankfurt's base is easy to replace
5. Carbides and holder roller are well brazed
6. Can provide a variety of bush hammer roller

Frankfurt bush hammers are ideal for producing rough anti-slip floor surfaces through a bush-hammered profile on floor. These concrete bush hammers and concrete floor texturing tools also easily remove thin coatings while surface prep for epoxy applications. Our bush hammering tools fit most popular grinders.
