

Factory Provides 60 Tooth Carbide Tip Wheel Diamond Tungsten Steel Bush Hammer Roller

Descriptions:

Factory Provides 60 Tooth Carbide Tip

Factory Provides 60 Tooth Carbide Tip is suitable for surface fabricating, making bush hammered effects for stone products.

Factory Provides 60 Tooth Carbide Tip to process bush hammered litchi surface on concrete granite, marble and other stone surface.

Specifications:

The normal size of **Factory Provides 60 Tooth Carbide Tip**:

Out Side	Grains No.	Length	Shape	Material
50MM	60S	54MM	Frankfurt	Alloy

Specially designed tools are available for any standard application. We can customize tools as per your exact needs.

Specification of grinding disc:

Product Name	Out Diameter		Roller Quantity	Segment Quantity	Connection
	Inch	mm

	6	150	4	45	
			3	30	
	8	200	6	45	
			4	30	
	10	250	8	45	
			5	30	
	12	300	10	45	
			6	30	

Features:

Factory Provides 60 Tooth Carbide Tip

1. Price are competitive.
2. Best value for your money.
3. Strict dynamic balance inspection.
4. Superior performance and durability.
5. Excellent good quality and long working life.
6. The grit of bush-hammered face can be adjusted.
7. Works with high efficiency, 5-8 times faster than that of manual processing.

Product Details:

Factory Provides 60 Tooth Carbide Tip is used for sophisticated welding technology and selection of high quality aluminum alloy for casting high product quality.

D50MMxL54MM

Advantage:

Factory Provides 60 Tooth Carbide Tip

1. As a manufacture, boreway has already developed advanced materials and also involved in setting national standards for super hard materials with more than 9 years experience.
2. Boreway not only able to provide high quality tools, also could do the technical innovation to solve any problems when grinding and polishing on various floors.

Application:

Factory Provides 60 Tooth Carbide Tip is suitable for floor surface fabricating, making bush hammered effects for stone products. Bush Hammer is a tungsten tool used to remove coatings, Widely used on granite, marble sandstone to make rough surface

This Type of Bush Hammer is used sophisticated welding technology and selecting high quality aluminum alloy to casting, bushhammered's grit can be changed through the adjustment of spring elasticity on bush hammer, manual grinding machine press. Both enlarging spring's interval to reduce spring elasticity and reducing machine's press can enhance bush hammer vibration to make bush hammered face rough.

About Us:

Packing □ Delivery:

PS:

- 1.Tools packing in carton cases
- 2.By Air/Sea for batch goods, Airport/Port receiving
- 3.Less than 45kg, generally delivery by express(Door to Door□)
- 4.When tools are in large quantities, they are packing in wooden cases

Our Service:

- 1.Low MOQ: It can meet your trial order need well.
- 2.OEM Accepted: We can produce according to your sample or drawings.
- 3.Good Service: We treat our clients as God with high professionalism and passion.
- 4.Good Quality: We have strict quality control system. Good reputation in the market.
- 5.Fast Delivery: We have big discount from forwarder.

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo
