

Factory Supply Circular 150mm Diamond Key Holes Stone Cutting Blade For Angle Grinder Machine

Applications Machine:

Diamond Key Holes Stone Cutting

Blade use for angle grinder, circular saw, masonry saw, table saw

Advantage:

1. **Diamond Key Holes Stone Cutting Blade** is adaptability, widely used in a variety of stone cutting, with sharpness, scientific segment design make the segment geometric consumed and clamp avoided.
2. Because the size of the saw blade is small and medium, it is easy to use, stable cutting without deformation, and flexible usage. It is one of the commonly used diamond cutting series.
3. It also serves as grooving wheels for stone and soft building materials, ideal for marble and limestone, fast grooving or milling on the stone surface.

Factory=Quality Control=Competitive Price=Own technology=OEM

Key slot design

1.Reduces the deformation of saw blade caused by cutting thermal expansion.

High purity low oxygen pre alloyed powder is used for cutter head carcass

1.Strong control and wear resistance;

2.The cutter head is not easy to break and deform

High purity low oxygen pre alloyed powder is used for cutter head carcass

1.Strong control and wear resistance;

2.The cutter head is not easy to break and deform

Feature:

Diamond Key Holes Stone Cutting Blade

1. Fast cutting speed Saw Blade
2. Durable for long life use Saw Blade
3. Different quality grade for clients choose
4. Other special specifications and colors can be produced by clients require.

Our factory use original
high grade diamond

pk

Other factory mix second
diamond selected from
waste segment

Our blade cutting effect

pk

cutting effect

● Cold Press Mschine

● Fill The Mold

● The Product Polishing

● Hot Press Machinery

● Remove The Mold

● Packing

Specification:

The following are normal specifications **Diamond Key Holes Stone Cutting Blade:**

The above specifications is only for reference, other specifications may be available as per customer's demand.

Attention when use:

1. Before saw blade installed, pollutions adhering between saw blade and flange shall be removed,
when installing saw blade, the marked direction shall be kept consistent with the rotating direction of electric tools, and flange shall be fastened by spanner attached to electric tools.
2. Do not use any saw blade that has been deformed for being pressed of crashed.
3. When operating, operator must wear safety helmet, safety footwear and goggles, protective glove, additionally, if necessary operator must use earplug, mask and so on
4. Electric tools shall have protective cover.

Applications:

Hot Sintered, Dry or Wet Use!

Diamond Key Holes Stone Cutting Blade is suitable for kinds of granite, stone, limestone, sandstone, basalt, natural stone lava stone etc.

Non Slip Tile

Floor Tile

Ceramic Tile

Concrete

Granite

Marble

About us:

Packing □ Delivery:

PS:

- 1.Tools packing in carton cases
- 2.By Air/Sea for batch goods, Airport/Port receiving
- 3.Less than 45kg, generally delivery by express(Door to Door)□
- 4.When tools are in large quantities, they are packing in wooden cases

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1. If we want to order your product, how do we know your quality?

You can test with a small order, and then you will know the quality. Nowadays, many people in the world use Chinese products because of their high quality and high cost performance. We are a professional diamond tool manufacturer with more than 8 years of manufacturing experience.

2. Can you provide samples for free?

We do not provide free samples. Based on years of experience, we believe that customers will want them because of their reliable quality. By purchasing samples, we will cherish and appreciate them and make them get more. We are ready to offer our potential customers a special discount on samples. It's very important that you give us feedback, and we will

appreciate it.

3. Does your company accept customization?

Of course, we accept customization. Including different colors, cutting objects, etc. We can also tag your own label and company brand. If you want us to make any new products for you, just send your products to us. Whether it's drawings or samples, we have the ability to produce the same products. We will not sell these products to others, only customers can get permission.

Please note:

Please use high frequency Silver Welded machine instead of Fire to make the brazing, the welding time is only a few seconds, otherwise the diamond inside the segments will probably be damaged by the high temperature, then the cutting performance will be Reduced!
