

Boreway Sale D190mm Metal Abrasive Tools Calibration Wheel Grinding Rollers Tools For Smooth Grinding Quartz Slab Stone

Advantage:

Metal Abrasive Tools Calibration Wheel

1. Excellent comprehensive cutting performance.
2. Fast aggressive stock removal and thickness calibration;
3. High processing efficiency and long life for quartz stone calibration;
4. Applicable for granites of various hardness classes, multi-purpose.
5. Grinds down the rough surfaces and leaves them smooth to the touch.
6. We can special-make diamond calibration roller according to the customer's drawing, the aluminum blank, iron blank and copper blank are available upon your demand.

Applicable Machines:

Metal Abrasive Tools Calibration Wheel is used sophisticated welding technology and selecting high quality aluminum alloy to casting, bush hammered's grit can be changed

through the adjustment of spring elasticity on bush hammer, manual grinding machine press.

Both enlarging spring's interval to reduce spring elasticity and reducing machine's press can enhance bush hammer vibration to make bush hammered face rough. Widely used on granite, marble sandstone to make rough surface.

Physical Product:

Callibration Wheel

Diamond
Satellite
Wheel/
Rollers

Specification:

Metal Abrasive Tools Calibration Wheel for engineered stone, quartz or other allomerated stone.

Surface calibration is the first step in quartz stone polishing and it is fundamental important in the quartz stone processing and usually the calibration are done on both the top and bottom of the slab. It helps eliminate defects formed during moulding.

Currently three designs of segmented calibrating discs are common in use, segmented cylindrical rollers, spiral cylindrical rollers and continuous rim calibrating rollers available as per different machines with same connection size and design.

The normal size of **Metal Abrasive Tools Calibration Wheel**:

Model	Grit	Thickness(mm)	Hole Size(mm)	Diameter(mm)
BW-DMW-01	24#	60	70	190
	36#	60	70	190
	46#	60	70	190
BW-DMW-02	36#	60	120	200
	46#	60	120	200
	60#	60	120	200

Specially designed tools are available for any standard application.
We can customize tools as per your exact needs.

About Us:

Our Service:

- 1.Low MOQ: It can meet your trial order need well.
- 2.OEM Accepted: We can produce according to your sample or drawings.
- 3.Good Service: We treat our clients as God with high professionalism and passion.
- 4.Good Quality: We have strict quality control system. Good reputation in the market.
- 5.Fast Delivery: We have big discount from forwarder.

FAQ:

1.How could we know the quality, if we want to order your products?

Please just test them with a very small order, then you will know the quality. At present,so many people in the world to use Chinese products, because of the high quality and most competitive prices. We are professional manufacturer in supplying diamond tools for more than 8 years. Anyway, confirming our products quality, a small trial order for testing will be necessary.

2.Can you offer free samples?

We don't offer free samples, according to our many years experience, we think people get the samples by paying, they will cherish and appreciate more what they get. But we are willing to give our potential customers a special discount which they are used to do a testing. It is very important to give us feedback, we appreciate it.

3.Does your company accept custom-made?

Surely, we accept it. Including different color, grit etc. We also can mark your own logo and brand on the pad. Any new products you want us to produce for you, just send us your drawing or sample, we will produce the same one. We will not sell this kind of products to other customers only if we get your permission.
