

Introduction:

This metal diamond grinding wheel is mainly used for coarse grinding of marble, granite and other stone plate surface, the grinding, high efficiency, good wear resistance, long life, suitable for automatic and hand-held machine (single head grinding machine).

Features:

1. The metal disc (iron-based disc) for coarse grinding of marble, granite, artificial stone plate, the mill
2. The processing of high efficiency, long life
3. Suitable for automatic and hand mill

specification:

The following are general specifications of our diamond metal grinding disc:

Model	Diameter	Grit	Connection	Craftsmanship
BW-MDGD-150	150mm / 6 "	50 #, 100 #, 200 #, 400 #	Metal screw holes	Metal binding
BW-MDGD-200	200mm / 8 "			
BW-MDGD-250	250mm10 "
