

Introduction:

1.Round Trapezoid Diamond Grinding Shoes For PHX Concrete Floor Grinder. The diamond polishing grinding disc can be applied to large-size concrete, terrazzo floor to remove epoxy, coating and glue on it. Good performance and easy to operate.

2.Round Trapezoid Diamond Grinding Shoes For PHX Concrete Floor Grinder.

Concrete diamond tools, with different shapes segments. Round buttons, arrow, rectangular bars, single or double segments for floor grinder. But what is more important, especially in the initial grinding steps, is the bond or hardness of the tools.

3.Round Trapezoid Diamond Grinding Shoes For PHX Concrete Floor Grinder. Grit: 6#, 10#, 16/20#, 30#-200#, 350/400#. For example, if you start with 30 grit, the next grit is 50 or 70, then 100 or 120, 200 or 220, 400, 800, etc.

Advantages:

- 1.Long life and very aggressi.
2. Available in soft, medium and hard bonds.
- 3.Metal backed works great on HTC machine.
- 4.Will work on all concrete grinding machines.

Specifications:

The followings are the normal specifications of **Round Segment Concrete Floor Grinding Tools for Lavina Diamond Tooling:**

Type	Grit	Segment No	Bond	Application
Abrasive Disc	16-400#	2 Pc	Soft, Medium, Hard	Floor Grinding And Leveling

Specially designed tools are available for any standard application. We can customize tools as per your exact needs.

Applications:

1. Concrete, Stone and Terrazzo.
2. Floor Grinding And Leveling .

Bond:

1. Super soft, soft, medium, hard, super hard.
2. Hard concrete requires softer bond to prevent glazing and to allow new diamonds to get easily exposed for maximum grinding.
3. Soft concrete requires harder bond, so it can last longer (soft bond also works but it will wear out too fast on soft concrete).
