

## Descriptions:

### 1800mm Wet Cutting Saw Blade Sandstone Diamond Segment for Block Cutting:

The design of **Sandstone Diamond Segment for Block Cutting** allows ideal debris removal and bettering cooling.

Our **Sandstone Diamond Segment for Block Cutting** are made by high-quality diamond powder and metal powder mixture, produced by pressing and sintering, diamond powder and metal powder combine closely, the quality is higher and the effect is better.

Such diamond segment are highest ratio of performance to price!

## Specifications:

We are instrumental in providing to our valuable customers excellent quality **Sandstone Diamond Segment for Block Cutting** which are available with following specification:

1800mm Sandstone Segment dimension				
Diameter		Dimension of Segment		
Inch	mm	length	Thickness	Height

72	1800	24	9.8/9.0	20
----	------	----	---------	----

Besides 1800mm Wet Cutting Saw Blade **Sandstone Diamond Segment for Block Cutting**, All of our products have been strictly tested before access to market. Other specifications can be customized according to requirements.

### Product Details:

#### 1800mm Wet Cutting Saw Blade Sandstone Diamond Segment for Block Cutting:

**M Shape Multi-Layer Structure,  
Good debris removal and better cooling**

### Applications:

**1800mm Wet Cutting Saw Blade Sandstone Diamond Segment for Block Cutting.** Block Cutting of Granite, Sandstone, various hard stone with quartz.

## Applicable materials

To meet your demands for cutting different materials, such as granite, marble, quartz stone, sand stone, microcrystalline stone, volcanic rock, concrete, glass, ceramic, masonry etc. Different segments recipe were been developed by our company.

Fast Cutting

Long Life

Stable  
Performance

**Cutting Effect:**

### **Advantages:**

1. The segment has good sharpness and high efficiency at the process of cutting, meanwhile, it has a long lifespan.
2. Good cutting result: smooth cutting, flat surface and even size.
3. Stable cutting, narrow cutting gap, stone waste reduction.
4. M-shape segment is easy for diamond opening.

### **Related Products:**

Fan Shape Edge Segment

Normal Shape Edge Segment

W Shape Edge Segment

K Shape Block Segment

V Shape Block Segment

M Shape Block Segment

Slant Slot Edge Segment

Turbo Shape Edge Segment

U Slot Edge Segment

## About us:

We have a strict quality control system□

**Packing & Delivery:**

### Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

### FAQ:

#### **1.If we want to buy diamond segment, how could we know the quality?**

Please buy diamond segment with a small quantity first, test the quality and our service, it will be much better for our long term cooperation. For small quantity, you don't need to take risk in case the quality doesn't fit your market.

## 2.What could we do if we find your diamond segment are not in good performance?

Please tell us the detailed information of the cutting, for example:

1. The RPM of the machine, the cutting object.
2. The detail picture of diamond segment after use, e.g. the cutting side of diamond segment.
3. Do you feed enough cooling water.

## 3.What is the delivery way?

Express Courier Service, Sea Cargo and so on. We give the advice according to actual situation for customers make decision.

### Please note:

Please use high frequency silver welded machine instead of fire to make the brazing, the welding time is only a few seconds, otherwise the diamond inside the segments will probably be damaged by the high temperature, then the cutting performance will be reduced!
