

Introduction:

Sintered flat diamond forming milling wheel also named diamond calibrating wheel. These wheels are designed for thickening and calibrating surface of stone.

Features:

1. Good sharpness and high working efficiency.
2. Small metamorphose and good balance.
3. Normal ones and silent ones are both available.

Specifications:

The followings are the normal specifications of our sintered flat diamond forming milling wheel:

Product Name	Diameter	Width/Thickness	Inner Hole	Segment Type	Silent or Not
Sintered Flat Diamond Forming Milling Wheel	12'' 300mm	25 mm	30 mm	Straight Segment Oblique Segment	Normal Steel Core Silent Steel Core
		30 mm	50 mm		
		35 mm			
		40 mm			
	14'' 350mm	25 mm			
		30 mm			
		35 mm			
		40 mm			

Other specifications can be ordered by customers.
