

Introduction:

Standard shape diamond dry polishing pads are used on polishing machines to polish the corner, inner arc, outer arc of granite, marble and irregular shaped stone, can finish polishing work efficiently without water, and with the strength of good sharpness, long life and high abrasion resistance. Compared with wet polishing pads, they can prevent stone from water spot, yellow stain and accumulation of salt.

Features:

1. High polishing efficiency, without board burning.
2. Long lifespan and stable performance.
3. Smooth polishing and glossy polishing surface.
4. Using from rough grit to fine grit, 3 steps, 5 steps and 7 steps are all available.
5. High heat resistance, work without water or just with little water.

Specifications:

The followings are the normal specifications of our standard shape diamond dry polishing pads:

Product Name	Outer Diameter	Grit No.	Color	Applications
Standard Shape Diamond Dry Polishing Pad	3" 80mm	Normal Grit: 50#	Colorful	Granite
	4" 100mm	100# 200# 400#	Black	Marble
	5" 125mm	800# 1500# 3000#	White	Other stone
	6" 150mm	3 Step 5 Step		

Some other specifications are also available.

Quality: Normal quality, Good quality, Premium
