

Descriptions:

Vacuum brazing bush hammer plate for concrete finish, create a sandblasting effect.

Double layers bush hammer plate is different from single layer type. The 2 plates are connected by bolts & springs and the springs also act as a buffer. This design is helpful when the slabs are not level. Vacuum brazing double layer bush hammer plate has a diameter of 125mm and is fixed with 3 rollers. The connection hole is M14.

The double layer design with springs can effectively reduce the impact when grinding, and this will help to extend the lifespan of the bush hammer plate and the angle grinder.

The difference between the bush hammer plate and other double layer vacuum brazing bush hammer plate is that its two-layer grinding discs have different diameters, which can reduce the weight and speed up the grinding speed of the bush hammer plate.

Feature:

1. Customized unique quick change type connection.
2. Separated rollers can be supplied for replacement.
3. Dust proof design of the rollers lengthens its lifetime.
4. 125mm double layer type bush hammer plate with 3 rollers.

Specifications:

The Followings Are The Normal Specifications Of **Single Layer Vacuum Brazing Bush Hammer Plate**:

Plate Size	Number of layer	Applied Material	Roller Type
D125mmx3TxM14	Double Layer	Stone, Granite, Marble, Concrete	Vacuum Brazed Double Layer High Low Bush Hammer Plate

More normal specification of **diamond rotary bush hammer plate**:

Model	Out Diameter		Wheel Width	Segment Quantity	Connection	Remark
	Inch	mm

Applications:

125mm bush hammer plate for hand held machine,angle grinder.

Double layer vacuum brazing bush hammer plate for concrete,asphalt,granite, marble.

D125x4TxM14
Single Layer Plate

D125x3TxM14
Double Layer Plate

D125x3TxM14
Double Layer
High Low Plate

Kindly Noted, when place order please inform the following:

- 1.Stone Effect□Sandblasted Surface/Litchi Surface□
- 2.Use Object (Marble, Granite Or Other Stone, Concrete And Other Stone)
- 3.Segment No.(30s, 45s, 60s, 72, 99s, Star, Steel Dense Tooth, Vacuum Brazing)
- 4.Diameter of the Bush hammer plate(125mm, 150mm, 200mm, 250mm, 300mm, 350mm, etc.)

5.Base Style(U

Shape, Frankfurt, Fickert, Lavina, Husqvarna, HTC, Klindex, Werkmaster, Diamatic, Etc.)

6.Machines (Hand Held Grinders, Automatic Bush Hammering Machine, Automatic Grinding Machine, Angle Grinder, And Floor Grinders)

Specially designed tools are available for any standard application. We can

Tailor your tools to your specific needs.

Our service:

1. Low order quantity: It can meet the test order you need.
2. Fast delivery: We get great discounts from freight forwarders.
3. OEM Acceptable: We can produce according to your samples or drawings.
4. Good quality: We have a strict quality control system. Has a good reputation in the market.
5. Good service: We regard our customers as God with a high degree of professionalism and enthusiasm.

FAQ:

1.What is the minimum ordering quantity?

A: Generally speaking, we can accept any quantity. However, please be aware that extra amount of fees might occur due to small quantity of small goods through express.For details, please contact us to discuss

2. What is I don't have any experience of using those tools or machines?

A: We strongly recommend you to know well about your ordered tools or machines to avoid further issues caused by inexperienced set up or maintenance. Somehow, we're able to provide instruction manual for free if asked.

3.What if I find out that delivered goods don't match my expectation?

Nevertheless, assuming if any customer is unsatisfied with delivered goods, we will try to contact to our customers ASAP for few confirmations such as identification of information given by customers, no damage done to goods during transportation or maintenance. After everything is figured, settlement should be done in proper procedures.

Please note:

1. Please provide items before purchase.
2. Please provide the model number before purchase.
3. Other specifications can be customized according to requirements.
