Production Description:

Introduction
This special shape diamond grinding wheels are widely used on profiling machines for granite marble quartz stone and other stone. We offer a wide range & shapes with different sizes to satisfy your exact profiling needs.

Features:
1. The unique design with good sharpness allows easy dust removal, low noise and safety.
2. This product provides high accuracy and smooth surface in stone processing.
4. With feature of high efficiency,accuracy in shape and size.
5. Using sequence:from rough grit to fine,finally polishing.
6. Various specification are available upon client's request.

Advantage
Our products export to Brazil, India, Australia, USA, Ukraine, Italy, Poland, Russia , more than 20 different countries . In these overseas markets,our special diamond grinding wheels enjoy a good reputation, we get good feedbacks about their corresponding test result, and also a long lifespan. so, we are confident in our products quality.

All of our our products have been strictly tested before access to market.
Other specification can be ordered by client.
