

Production Description:

Introduction

These diamond core drill bit are designed for drilling glass,marble,tile,ceramic,pottery and many other non-metal crisp materials.These drill bits are mainly used on portable electric driller and bench drilling machines,appear a high efficiency and smooth cutting.

Features:

- 1.High drilling efficiency.
- 2.Smooth cutting without side damage.
- 3.Stable performance
- 4.Can be widely used in stone processing,glass process and ceramic processing.

All of our our products have been strictly tested before access to market.

Other specification can be ordered by client.

Detailed Images:

Diamond drill bits for glass marble tile and ceramic

The following is the normal specification of Diamond drill bits

Name	Diamond drill bit for glass
Model	BW-DRB-G
Process	Electroplate
Meterial	Metal and diamond
Diameter	5mm - 100mm
Length	50mm-60mm
Connection	Clamp lever
Application	Glass,marble,tile,ceramic,pottery

Diameter:10mm

Diameter:18mm

Diameter:20mm

Diameter:25mm

Diameter:30mm

Diameter:35mm

Diameter:40mm

Diameter:50mm-100mm

Above is a picture of our conventional diamond drill bits,
Other specifications can be customized according to requirements.

Packing & Delivery:

We will deliver within seven days of your payment, diamond drill bits are packed in cartons.

We can also pack the drill bits according to your requirements.

Special diamond drill bits delivery through consultation.
