

1

High Quality Carbide Alloy

The whole is made of cemented carbide with superb welding technology, which has the characteristics of high quality and low overall cost.

2

Commodity Grade Raw Materials

Hard alloy welded, a variety of alloy particles are matched by the number and characters, and various specifications can be customized,

3

Strong Pertinence

There are different shapes for different needs, and it can be used with various grinders according to the needs of litchi noodles.
