

## Introduction:

The 3inch vacuum brazed diamond grinding pads combine the aggressiveness of vacuum brazed diamond cup wheels and smoothness of diamond polishing pads.

Attached to a semi rigid back holder, rubber backer absorbs the noise and vibration created by steel based diamond cup wheels to give fabricators the smoothest feel, while aggressively shaping and removing material.

## Feature:

1. 30 50 and 100 grit is more aggressive for granite, marble, glass, and other stones, even concrete
2. Hook and loop fastener backed for quick and easy change with back holders
3. Optimal speed around 4000-5000 RPM
4. Wet use preferred to extend life

## Specification:

Specification of 3 Inch 30# 50# 100# Vacuum Brazed Diamond Tools Glass Polishing Pads Easy Operation

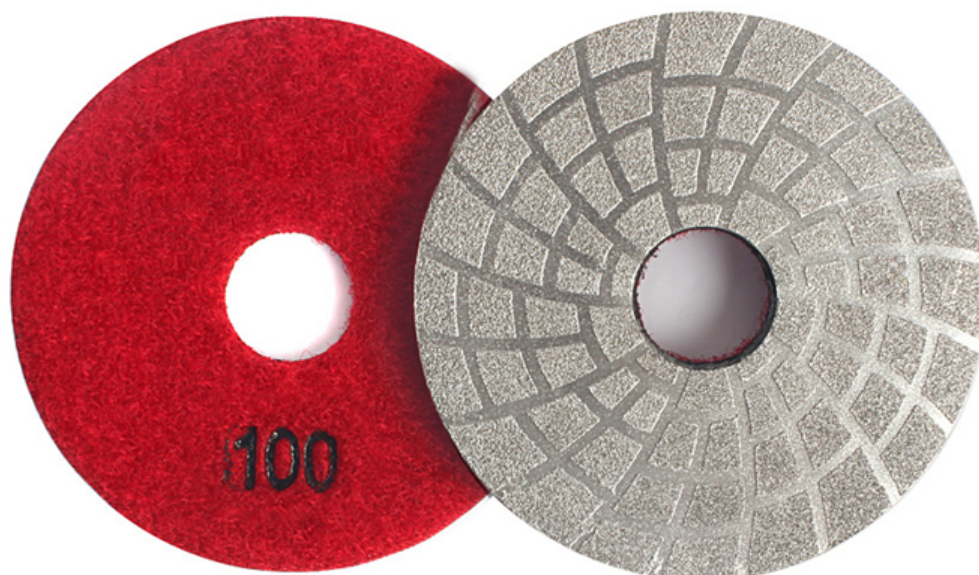

Description	Thickness	Diameter	Bond		Grit
Vacuum Brazed Diamond Polishing Pad	2.5mm-3mm	3"	Brazed	Electroplated	(triangle)30#, 60#, 120#, 200#, 400#
				Resin	(triangle)800#, 1800#, 3500#, 7000#
		4"		Brazed	30#, 50#,100#
		5"			

Special application and design are available upon request
