

Product Description:

Brief Introduction:

Diameter 350mm reinforced concrete (laser or silver welding) welding diamond ring saw blade with professional ring saw machine use, cutting depth up to 260mm. For the construction of cutting reinforced concrete and railway concrete sleeper, etc., can also be used for housing decoration wall window, cutting small openings and a small amount of adjustment windows, indoor and outdoor from brick to reinforced concrete various types of cutting, Pipeline installation, material removal, widely used in municipal construction projects, fire rescue, demolition, road and bridge construction, road maintenance, housing demolition, power repair and other mobile field operations. Can be mounted on k950, k960 and k970 hand-held saw blades.

We mainly produce the United States, Canada, Australia, Iceland, Sweden, Germany, France and other European and American countries, praised by local market customers.

Features:

- 1* Specifically for deep and fast cutting use;
- 2* Suitable for wet and dry use, wetting effect is better;
- 3* Smooth cutting, good cutting effect;
- 4* For different objects to be cut, select a different recipe;
- 5* Selection of high quality diamond powder, with good sharpness and longevity.

All of our products have been strictly tested before access to market.

Other specifications can be customized according to requirements.

Details:

Specification of diamond ring saw for cutting reinforced concrete:

Diameter	Inner hole	Segment height	Segment thickness	Segment type	Welding type	Max cutting depth
350mm	288mm	8 / 10 mm	4.1 / 4.2 mm	Straight or corrugated	Laser/silver welding	260 mm

Note:

Other specification can be customized according to demand.
